

# Become a Certified Green Sustainability Contractor

The Canadian Green Sustainability Program (CGSP), available through the Canadian Sanitation Supply Association (CSSA), is a nationally-recognized program, complete with an independent third-party certification and auditing system, Franken LeDrew Consulting. **The CGSP™ is designed by Canadians for Canadians.**

Building Owners and Facility Managers are currently seeking service personnel who can accommodate their goals of achieving **Green Building Status**. **Building Service Contractors** and **In-House Service Providers**, who become **Certified Green Sustainability Contractors**, are equipped with the tools and knowledge to achieve these goals.

- Improve your company's visibility and credibility with **Green Certification Status**.
- Certification through the CGSP™ is **affordable** and **achievable**.
- Build **national recognition** through the CSSA web site and marketing programs.
- Certification through the CGSP™ will help **reduce internal liability** through the reduction of chemical toxicity and exposure.
- **Increase** employee morale and **reduce** turnover.
- **Improve profit margins** through increased business and lead referrals.
- CGSP™ is supported by **TerraChoice / EcoLogo**.
- Enjoy the benefits of **Associate Membership** in the Canadian Sanitation Supply Association.

For a complete **Directory of Sustainability Expert Sustainability Professionals**, visit the CSSA web site at [www.cssa.com](http://www.cssa.com) for a complete list.
